Market Intelligence for Your Success

January 2019

Ceresana – Your Partner in Market Research

Interdisciplinary Experience

As one of the globally leading market research institutes, Ceresana is specialized in the segments chemicals, plastics, packaging, and industrial goods. For over 15 years, our experienced team has been analyzing industrial markets and their development.

Market Intelligence

We provide full market transparency by means of profound professional and methodical expertise. Already more than 10,000 clients from 60 countries trust our market studies.

Market Analyses for Sustainable Success

With our data and facts, we support companies of all sizes in making their strategic decisions. By using the information we provide, our customers can seize considerable competitive advantages.

Profit from the market expertise for
your successful management now!

Understanding of Markets

- ✓ Where are opportunities for your company?
- ✓ Where are potential future markets?
- ✓ How high is the market growth per country?
- ✓ What are the current economic, political, and industry-specific trends?

Keep Focus on Competition

- ✓ What do competitors offer their clients?
- ✓ Which product innovations are there?
- ✓ Where are new market entries or M&A?
- ✓ How are competitors positioned?

Analyze Your Value Chain

- ✓ Where do ideal procurement, production, and sales conditions prevail?
- ✓ What are the most important market actors?
- ✓ Are imports or exports advisable?
- ✓ Who are possible business partners?

Identify Demand and Customers

- ✓ What are possible application areas?
- ✓ Who are the most important customers?
- ✓ Where are further target groups?
- ✓ What is the trend of demand?

We provide
the answers.

Our Market Reports – Benefit as well!

In-Depth Analysis

Companies from all over the world already profit from our market studies. Our structured and systematic research and analysis provide you with the market knowledge for your success as well.

Reliable and Relevant Data

We offer reliable product and market forecasts and shed light on trends, opportunities, and risks. Besides up-to-date information, our reports also include data on development of revenues, capacities, and demand as well as on the most important manufacturers.

Extensive Offering

Ceresana offers over 75 high-quality reports on the chemical industry, plastic industry, packaging industry, and industrial products. You can find an overview of our current offering on the following page. All market studies are available in English and German.

Single-Client Market Studies

The report topic you need is not included in the list? Feel free to contact us via phone or e-mail. We will gladly discuss the possibilities of customized single-client studies with you.
